StreetFire RBX1600 Application Board Rework List.

1) **Power Supply Squealing Noise**

   Replace C3 and C7 with 10uF Ceramic Caps. Use Taiyo Yuden LMK325BJ106MN or AVX 1210ZD106KAT2A.

2) **Audio Output Noise**

   Remove the 0-ohm Resistor on R50 and replace with a Ferrite Bead. Use Murata BLM18AG121SN1.

   With a SOLID #24 Bus Bar Wire short FB25. Use Alpha Wire Company 299 SV001 [Digi-key: A299SV-1000-ND] or from other Manufacturer.
   Note: Don't use 0-ohm Resistor or a Ferrite Bead.
